

Final Project Summary

1. Appropriate meta tags

Each page contains the following meta tags in the parent `<head>` tag:

```
<meta charset="UTF-8">
<meta http-equiv="X-UA-Compatible" content="IE=edge">
<meta name="viewport" content="width=device-width, initial-scale=1, shrink-to-fit=no">
```

2. One page utilizing tables effectively to display tabular information

Mental Health Suggestions Page – The `<div>` with the header “External Resources – *Noun Project*” displays icons and their respective designers in a two-column table.

Weather Check Page – The `<div>` with the header “Weather Icons” displays icons and their corresponding weather type in a two-column table.

3. One e-mail hyperlink & One external hyperlink with the target attribute set to blank

On the About Page, the envelope icon is an e-mail hyperlink that when clicked, opens an email draft to my personal email address within the user’s default mail system. On the same page, the Behance icon, when clicked, leads to an external hyperlink with target attribute of blank (#).

4. Consistent banner/logo area

My logo is at the top-center of each page and does not change whatsoever from page-to-page.

5. Consistent main navigation on all pages (no use of back button allowed)

The navigation bar is identical on each page, and no back buttons exist.

6. Association with external style sheet

Each page is linked to the following three style sheets:

```
<link rel="stylesheet" href="css/bootstrap.min.css">
<link rel="stylesheet" href="css/style.css">
<link rel="stylesheet" href="https://cdnjs.cloudflare.com/ajax/libs/font-
awesome/4.7.0/css/font-awesome.min.css">
```

7. One Bonus Feature: Flash SWF, YouTube video, CSS image gallery, or CSS Transition

Home/Index.html Page – A CSS Transition is implemented when hovering over the different case studies within the display grid.

Festive Reviewer Page – A YouTube video is embedded in the `<div>` with the header “User Experience”.

8. Each page MUST include text & images

All pages include both text and images.

9. One template page

I did not use a template for any of the 10 pages of my website.
